AUTOMATIC CHAIN LINK FENCE MACHINE

Parts Details

MACHINE DETAILS

- Electric Panel
- Wire Pay off Stand (230 – 250 kg Capacity)
- Cutting Machine **Housine 3.8 kw**
- Weaving Machine with 3.8 kw Servo Motor
- Wire Welder (Optional)

ACCESSORIES

- Moulds (1 , 2 , 2.5 , 3 , 4 inch)
- Tool Kit
- Oil Dispenser

TECHNICAL SPECIFICATIONS

- 3.8 kw Servo Drive – Housine
- Other 6 Motors with Gear Attached
- Power consumption : 1 unit/hour
- Space Required : 18 X 18 ft.
- Mesh Size : 25 MM – 100 MM

SAFETY & CONTROL

- Extra Transformer
- Remote Control System
- Mitsubishi PIC Control

Servo Motor Specification

- Brand Name : Housine
- Power : 6 HP / 3.8 kw
- RPM : 2500
- Torque : 15 N.M.

An electronic panel is incorporated with a next generation **HOUSINE programmable automation controller (PLC)**, incorporates a revolutionary high speed system that improves productivity through advanced performance and functionality. Our electronic panel is also on corporated with **HUCAN Electric Component** and **TouchWin** touch screen.

| <u>Specifications:</u> | |
|----------------------------|---|
| Wire dia : | 1.6 mm to 4 mm wire will work with this machine |
| Square size : | 25 mm to 100 mm square mesh size will produce in this machine |
| Width : | 3 miter width machine |
| Production : | 1000 square feet or 120 kg per hour (production always depend on wire dia, mesh size and width |
| power consumption : | 1 unit per hour |
| Price : | 9,00,000 |
